

## Location Management SERVICES

### **Location Management Services – Driver Fatigue Management System**

The LMS Driver Fatigue Management System (LMS-DMS 650) is a driver monitoring camera system designed to assist in the investigation into driver behaviour patterns.

Users of this DFMS need to be aware it is not designed and must not be relied upon as a total solution in preventing an incident relating to driver fatigue or inattention.

**Sole responsibility lies with the driver to ensure they have a safe level of alertness suitable for driving and should adhere to all the laws and safety precautions outlined by relevant authorities in the jurisdiction.**

The DMS 650 camera unit will record and analyse the drivers face and surrounds to identify certain habits and behaviours. The LMS- DMS 650 will then produce alerts based on changes to normal recognised behaviours as listed below:

The DMS 650 is designed to advise those bodies managing the system within a company of breaches and are not guaranteed to prevent an accident, injury or damage to any person or property. **Location Management Services holds no liability should a driver fall asleep.** It is also the responsibility of the company or person who purchases the system to ensure the system is maintained and operating/alerting as outlined above and for the driver of the vehicle to ensure they are fit for work.

The DMS software will provide full reports on all alerts raised by the FMS which can be used for reviewing incidents and driver development.

**By signing this document**, you agree and understand that any injury or property damage resulting from a vehicle incident is not the responsibility of Location Management Services. The safety of any vehicle occupants is the responsibility of the vehicle owners and drivers. Drivers should never drive tired, and their level of alertness should be such as to comply with all laws and safety precautions issued by the relevant authorities. Location Management Services shall not be liable for any direct, indirect, punitive, incidental, special, or consequential damages, to property or life, whatsoever arising out of or connected with the use or misuse of our products.
